THE ART OF INDUSTRIAL

INDUSTRIAL REIMAGINED

Since 2000, Get Back Inc has provided singular vintage industrial furnishings to the particular. Among the vanguard who shaped the vintage-industrial aesthetic, founder and designer Tim Byrne built Get Back Inc on what was built to work, to last & to impress. He has been commissioned to design and build bespoke store displays, furniture, and lighting fixtures for a wide-variety of projects. With clients from all the greatest cities around the world, everywhere from Paris to London, Montreal to Manhattan, Sao Paulo to Sydney and even Cape-Town to Reykjavik, you'll find great designs that help to better connect us all.

REDEFINING VINTAGE

We make new art on old ground.

Vintage is a way of seeing, and these are the machines, lights, and furniture that we have culled from the factories and workshops in America's industrial past, restored, and freshly presented for those with a discerning eye.

Forged with uncommon quality, the materials, castings, and fixtures of genuine industrial furnishings are imbued with inimitable character.

These are heritage pieces serving as functional art.

Experience the vintage... difference.

REDEFINING INDUSTRIAL

We build on what was built to last.

We rescue exemplary Machine Age pieces from the American Industrial Revolution forward into the Postwar Era and transform them into heirlooms.

Our hope is future generations will appreciate the painstaking craftsmanship that went into these old machines and furnishings that faithfully served the men and women who literally made America.

We take up the objects of our shared history, we rework, preserve and then present them, in the most novel way.

Experience The Industrial... difference.
